Sep 26, 2020( CalMatters: <https://calmatters.org> Delivered by Newstex) With 12 contentious propositions on your California ballot, you've probably got questions. From kidney dialysis and affirmative action to rent control and gig workers, CalMatters has you covered. We're holding five 'Props to You' events — a series of virtual Q&A sessions that let you ask questions about the California propositions to help you make more informed decisions when you mark your ballot. Each event covers two to three propositions, with a CalMatters reporter moderating your questions and subject experts who will answer them. This is an opportunity for you to ask experts how the state ballot measures will affect you and your community, and our goal is to help you make informed civic decisions this election season without the headache.
